

Test Case 1

Description:

- When the "See all robots" button is clicked, you should be able to see all the robots that are available

Steps:

1. Go to <http://localhost:4000>, the duel duo game
2. Click on the "See all robots" button that is right under the instructions for the game

Post conditions:

- Every robot should be shown and listed on the page once the button is clicked

Bug report 1(for test case 1)

March 24 2023

Description:

- No robots are shown when the "See all robots" button is clicked

Steps to reproduce:

1. Go to <http://localhost:4000>, the duel duo game
2. Click on the "See all robots" button that is right under the instructions for the game
3. Refresh the page
4. Click on the same button to confirm the results from step 2 is the same

Expected Results:

- Every robot will be shown and listed once the button is clicked

Actual results:

- No robots, or any contents at all, are shown on the page once the button is click

Environment:

- Chrome Version 111.0.5563.110 (Official Build) (arm64)
- Mac Ventura 13.2.1 (22D68)

Test Case 2

Description:

- After you play a game of duel duo, the counter for “wins” should increment by one if the last played game resulted in a win for the user. And the counter for “losses” should increment by one if the last played game resulted in a loss for the user.

Steps:

3. Go to <http://localhost:4000>, the duel duo game
4. Click on the “draw” button
5. Click the “Add to duo” button on two robot’s cards to add two robots to your team.
6. Click the “duel!” button that is under the chosen duo for your team
- 7.

Post conditions:

- In orange text, the words “You win!” or “You lost!” should display based on the results of the game and either the “wins” counter or “losses” counter should increment by one based on the results of the last played game.
